

Assembling a Modulo | cube

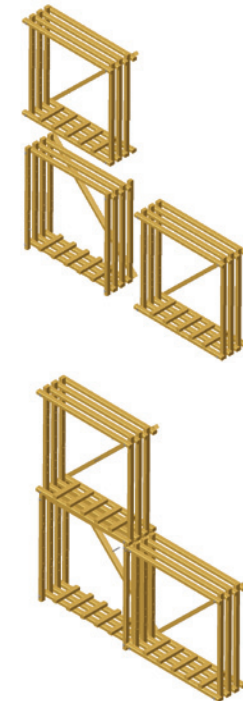

Ultra simple bottle storage

Modulo|cube is **supplied pre-assembled** for very easy installation: no tools are required, you simply unfold the module and lock it in place with the cross bar.

It is also very easy to attach the modules to each other: simply fit them together then secure them with pins.

Please note: if creating more than two levels, it is essential to fasten the Modulo|cube to the wall.
